

# Colinton Dell 03.10.2010

## Taxonomic Index

### Ascomycota

#### Leotiomycetes

##### Helotiales

###### *Bisporella citrina*

*Fagus*, branch, fallen, mixed semi-natural woodland.

##### Rhytismatales

###### Rhytismataceae

###### *Rhytisma acerinum*

*Acer pseudoplatanus*, leaf, attached, mixed semi-natural woodland.

#### Sordariomycetes

##### Hypocreales

###### Nectriaceae

###### *Nectria cinnabarina*

twig, fallen, mixed semi-natural woodland.

##### Xylariales

###### Diatrypaceae

###### *Eutypa maura*

*Acer pseudoplatanus*, branch, fallen, mixed semi-natural woodland.

###### Xylariaceae

###### *Xylaria hypoxylon*

log, mixed semi-natural woodland.

###### *Xylaria polymorpha*

log, mixed semi-natural woodland.

### Basidiomycota

#### Agaricomycetes

##### Agaricales

###### Agaricaceae

###### *Coprinus comatus*

soil, trackside.

###### *Lycoperdon pyriforme*

wood, buried, mixed semi-natural woodland.

###### Mycenaceae

###### *Mycena*

leaf, litter, mixed semi-natural woodland.

wood, mixed semi-natural woodland.

###### *Mycena vitilis*

leaf, litter, mixed semi-natural woodland.

###### Physalacriaceae

###### *Armillaria bulbosa*

stump, mixed semi-natural woodland.

###### Psathyrellaceae

###### *Coprinellus micaceus*

as *Coprinus micaceus*, log, mixed semi-natural woodland.

###### Tricholomataceae

###### *Lepista nuda*

leaf, litter, mixed semi-natural woodland.

###### *Melanoleuca arcuata*

soil, trackside.

###### *Melanoleuca cognata* var. *cognata*

as *Melanoleuca cognata*, soil, trackside.

##### Auriculariales

###### Auriculariaceae

###### *Auricularia auricula-judae*

branch, fallen, mixed semi-natural woodland.

###### *Exidia thuretiana*

*Fraxinus*, twig, fallen, mixed semi-natural woodland.

##### Geastrales

###### Geastraceae

###### *Geastrum triplex*

*Acer pseudoplatanus*, leaf, litter, mixed semi-natural woodland.

##### Hymenochaetales

###### Hymenochaetaceae

###### *Phellinus ferreus*

*Quercus*, branch, fallen, trackside.

### Polyporales

#### Fomitopsidaceae

##### *Postia tephroleuca*

trunk, cut, mixed semi-natural woodland.

#### Ganodermataceae

##### *Ganoderma applanatum*

*Fagus*, trunk, live, mixed semi-natural woodland.

#### Meruliaceae

##### *Phlebia tremellosa*

as *Merulius tremellosus*, log, trackside.

#### Polyporaceae

##### *Trametes versicolor*

trunk, cut, mixed semi-natural woodland.

27 records, 23 species.
